the sacred formulas here given are selected from a collection of about six hundred obtained on the cherokee reservation in north carolina in 1887 and 1888 and covering every subject pertaining to the daily life and thought of the indian including medicine love hunting fishing war self protection destruction of enemies witchcraft the crops the council the ball play etc and in fact embodying almost the whole of the ancient religion of the cherokees the original manuscripts now in the possession of the bureau of ethnology were written by the shamans of the tribe for their own use in the cherokee characters invented by sikwaya sequoyah in 1821 and were obtained with the explanations either from the writers themselves or from their surviving relatives some of these manuscripts are known to be at least thirty years old and many are probably older the medical formulas of all kinds constitute perhaps one half of the whole number while the love charms come next in number closely followed by the songs and prayers used in hunting and fishing the great number of love charms will doubtless be a surprise to those who have been educated in the old theory that the indian is insensible to the attractions of woman the comparatively small number of war formulas is explained by the fact that the last war in which the cherokees as a tribe were engaged on their own account closed with the revolutionary period so that these things were well nigh forgotten before the invention of the alphabet a generation later the cherokees who engaged in the creek war and the late american civil war fought in the interests of the whites and their leaders were subordinated to white officers hence there was not the same opportunity for the exercise of shamanistic rites that there would have been had indians alone been concerned the prayers for hunting fishing and the ball play being in more constant demand have been better preserved
